

One of the field's aims consists of the systematic attempt to identify what people (essentially or characteristically) have in mind when they think about the topic of life's meaning. For many in the field, terms such as "meaning" and "significance" are synonymous with "meaningfulness" and so on. The relationship between meaning and significance is a complex one (see, for example, the discussion in 186). The relationship between meaning and significance is a complex one (see, for example, the discussion in 186). The relationship between meaning and significance is a complex one (see, for example, the discussion in 186).
